YOUR SUPPORT SAVES LIVES

HEART for the Nations is a non-profit in Pennsylvania. We have been doing relief services for the past five years in Guatemala (following Hurricane Stan), Nicaragua and Myanmar (following the tsunami 2007).

Our emphasis is supplying much needed water filters to those most effected by natural disaster and others living in extreme poverty. We have the opportunity to purchase and deliver water filters from the Dominican Republic. This past week we purchased 50 water filters to be delivered to Port-Au-Prince area. These filters will help 500 people survive the earthquake. 50 filters is just not enough! Our desire is to help many, many more victims in Haiti. We can only do this with your generous donations. Please consider donating water filters to save lives.

- \$35 for one FILTER helps a family of 8
- \$70 for two FILTERS helps 2 families/16 people
- \$105 for 3 FILTERS helps 3 families /24 people
